The direction

Updated October 22, 2026 for Tony, Theresa, Brian and Ayooba. Social media services are now the lead commercial offer. This is a build specification and copy draft; no live site or social account was changed.

One personality. Clear paths into every business.

TonySlice.com introduces Tony as a creator, host and actor whom businesses can hire to visit, create social content and support ongoing social media. It also converts event inquiries and routes shoppers or service customers into the business network. Tony Slice stays the dominant public identity.

Layer	Use
Public face	Tony Slice: entertainment, appearances, acting, food, travel, comedy and business stories.
Management	Theresa Murray: proposed public booking/management contact, subject to her approval. Do not invent a management email.
Business network	Separate operating brands with their own booking sites and policies. Describe the relationship accurately; do not label every collaborator as an owned business.
Ownership	User-specified owner/operating brand: All Media Solutions. Use this spelling consistently. Formal entity/DBA and rights documents remain to be checked; do not substitute All Eats Solutions or create a new All Solutions name.
Private parent	Keep the Wyoming company name out of promotional branding. Required contracting or policy disclosures still need accurate legal identity.

Homepage order

• Header: Hire Tony | Events | Watch | Businesses | Media Kit, plus Book Tony.

• Cinematic hero: TONY SLICE. YOUR BUSINESS. YOUR EVENT. IN THE SPOTLIGHT. Real portrait; Hire Tony for Social Media and View My Work.

• Credibility: linked radio appearances, relevant commercial examples and a real showreel.

• Hire Tony: a content visit, ongoing social management or launch/event coverage; clear quote requests.

• Events: hosting, appearances and quoted setup/coordination. Corporate/catering inquiries get their own path.

• Business network: Fresh Fold bookings, Noble Goods shopping, CacaceNYC clothing and other services.

• Featured clips: actual counts with dates; choose relevant work as well as high-view entertainment.

• Short inquiry form, Theresa management contact and the All Media Solutions ownership/footer wording.

Latest visual direction: a cinematic movie-cover hero in deep navy, champagne gold and warm cream. Earlier lime/Christmas mockups are exploratory and do not override this brief. A revised visual target must be approved before implementation. Fresh Fold is laundry; generated sample copy is not an approved fact.

What the preview needs

Review scope: current homepage and footer, captured October 22, 2026, plus the Grow My Website on-page scan. This is a bounded review, not a full technical or accessibility audit.

Step / health	Evidence	Action
1. Homepage / strong base	Large Tony Slice identity, real portrait and a clear Book Tony button. The small hero video preview shows a broken-image indicator in the captured view.	Keep the recognition and clear action. Fix the preview image and use a real reel poster. Add direct access to travel, acting and media-kit content.
2. Footer / needs correction	Visible line: Tony Slice - an All Eats Solutions brand. The All Eats promotion names Advantage Media Pro and links to advantagemediapro.com.	Remove the unverified ownership hierarchy. Use the approved network language and verify each destination before publication.
3. SEO scan / basic fixes	Grow My Website reported 83/100, missing social title/image tags, no canonical tag and a 61-character title warning.	Set branded social previews and a production canonical strategy. Treat title length as editorial guidance, not a hard ranking rule.

Highest-priority fixes for Brian

• Live-site check also found unrelated Russian-language casino text/links. Investigate and remove the unauthorized content before promotion; the cause was not established in this review.

• Replace the ownership line only after Theresa confirms the rights owner and the public-name choice. Do not silently substitute All Eats Solutions for All Media Solutions.

• Move the business directory above the footer. All Pet is currently plain text in the observed homepage DOM; link it only when the destination is ready.

• Add visible Travel & Hotels, Media Kit and Actor pages. Add event coordination as a separate inquiry choice, with the actual scope confirmed before any quote.

• Shorten the initial inquiry form. Keep extra project questions conditional so a hotel prospect does not get an event-only questionnaire.

• Keep the existing privacy choices. Verify that the site actually honors them; visible consent copy alone is not proof.

Accessibility and testing limits

The black/cream/lime layout provides a clear visual hierarchy. Small secondary text and the analytics overlay need mobile and zoom checks. The screenshot does not establish contrast ratios, keyboard order, screen-reader behavior, form delivery, consent behavior, speed or WCAG compliance. No inquiry was submitted and no analytics access was used.

SEO implementation notes

Suggested title: **Tony Slice | Social Media Creator & Event Host**. Suggested description: **Hire Tony Slice for on-site social content, social media management, event hosting and brand collaborations in New York and Pennsylvania. Request a quote.**

Keep the preview access-controlled or noindex while staging. On production, use the chosen HTTPS domain consistently, preserve existing useful article URLs with redirects where needed, set real social images, and include only verified social profiles in structured data. Do not add the private parent name to promotional metadata.

Pages ready to grow

Create reusable page templates and private drafts. Empty pages stay out of navigation, public search results and XML sitemaps until they contain useful content.

Page / proposed path	Purpose / content
Home /	Cinematic Tony introduction, Hire Tony for Social Media, booking paths and business directory.
Hire Tony /social-media/	Content visits, ongoing social management and campaign inquiries. See page 9.
Watch /watch/	Real videos organized by niche, with readable summaries and original platform links.
Food /food/	Restaurant visits, food comedy, features and restaurant collaboration inquiry.
Travel /travel/	Hotels, destinations, amenities, visit dates, disclosures and approved booking links.
Comedy /comedy/	Skits, personality clips and recurring series. Identify adult-language material where useful.
Events /events/	Host/emcee, private parties, community events, appearances and coordination inquiries.
Business /business/	Entrepreneurship stories and routes to services; corporate/catering pages are specified on page 10.
Pets /pets/	Fajita and Taco content, pet travel and routes to pet services.
Actor /actor/	Current headshots, short bio, accurate credits, demo reel and casting inquiry.
Businesses /businesses/	Approved operating-brand directory; active brands first, planned brands in drafts.
Collaborate /collaborate/	Separate paths for hotels, restaurants, venues, product brands and agencies.
Media Kit /media-kit/	Professional web kit plus dated downloadable PDF with verified audience data.
Updates /updates/	Tony Slice is back, series announcements and seasonal updates.
About /about/	Tony story, public geography and approved management introduction.
Book /book/	Short inquiry form, call/text contact, clear request vs. confirmed-booking wording.
Policies	Privacy, terms, affiliate/sponsorship disclosure and rights/licensing contact.

Every niche template needs these fields

Page name; public headline; 40-80 word introduction; real feature photo; alt text; approved videos; article collection; relevant business link; collaboration button; sponsorship label when needed; SEO title; description; review date; status; editor; approver.

Reserve additional draft categories for Shopping & Finds, Community, Interviews and future series. Do not populate them with filler or launch separate thin location pages just to target search terms.

The business network

Use the heading Explore the businesses or Our business network. Exact ownership of each entity remains subject to records; this brief does not establish Theresa as legal owner of every brand.

Brand	Public category / route	Publication status
Fresh Fold Altoona	Laundry pickup, wash/dry/fold and delivery. Required wording: Delivered by Orbit. Route to FreshFoldAltoona.com.	Known domain; verify HTTPS and live booking route.
Turn Key STR	Furnished short and extended stays. Route to the approved current booking site.	Existing preview points to Wix; confirm preferred final URL.
All Eats Solutions	Restaurant websites, ordering, POS and growth services.	Confirm official destination; current preview mixes brand names.
All Pet Solutions Care	Pet sitting and animal care services.	Publish when live contact, service area and booking route are approved.
Orbit Delivery	Delivery services; supports Fresh Fold.	Keep route relevant; do not duplicate the laundry offer.
Noble Goods	E-commerce and resale. Public name updated by user. CTA: Shop Noble Goods.	Publish with the real storefront and current policies; confirm exact URL.
CacaceNYC	Custom clothing. CTA: Explore Custom Clothing.	Add its own page; confirm preferred brand styling and store URL.
State College Student Laundry	Student laundry service.	Planned brand: private draft.
Penn State Car Rentals	Vehicle rental project.	Planned brand: draft; name/affiliation and operating setup need review.
All Moving Solutions	Moving help and related services.	Draft until service scope, availability and destination are confirmed.
Legal directory project	Separate professional directory brand.	Do not publish under Tony Slice as an operating legal service.

Each directory entry

Use the approved logo, one factual service sentence, city-level service area, one clear action and the real destination. Do not publish residential street numbers. Do not bring old pricing into this build without a current check.

Contextual routes that make sense

Hotel/travel content can link to furnished stays; restaurant content can link to All Eats; pet stories can link to All Pet; a busy-lifestyle post can link to Fresh Fold. Keep each article focused on its subject and show only relevant service links.

When Tony promotes a business that he, his family or management has a financial connection to, disclose the relationship with the endorsement. Do not frame connected-business promotions as independent reviews. [3]

Niche handles and account setup

These are proposed usernames, not verified availability or created accounts. Existing handles supplied in conversation: Instagram @TonySlice, TikTok @TonySlice1 and Theresa @Irishbrandboss. Confirm account control before linking.

Niche	Proposed handle	Backup	Site landing page
Main personality	Keep existing handles	Do not rename casually	/
Food	@TonySliceEats	@EatsWithTonySlice	/food/
Travel / hotels	@TonySliceTravels	@TravelWithTonySlice	/travel/
Comedy	@TonySliceLaughs	@TonySliceComedy	/comedy/
Events / hosting	@TonySliceLive	@BookTonySlice	/events/
Business	@TonySliceBusiness	@TonySliceBuilds	/business/
Pets	@TonySlicePets	@PetsWithTonySlice	/pets/

Launch order

Keep the main account active. Launch food and travel when there is enough real content to sustain them; reserve the others where possible. Each branch retains Tony Slice in the display name, avatar treatment and bio. Acting can begin as a professional web page without another social account.

Copy-ready bio patterns

Food: Tony Slice | Food & Restaurants
New York bites. Pennsylvania finds. Real reactions.
Watch, explore and collaborate: TonySlice.com/food/

Travel: Tony Slice | Hotels & Travel
Hotel stays, local adventures and big personality.
Features and collaboration inquiries: TonySlice.com/travel/

Events: Tony Slice | Event Host
Hosting, appearances and party inquiries across NY & PA.
Management and date requests: TonySlice.com/events/

Ayooba’s reservation checklist

For each platform, record requested name, actual reserved username, profile URL, responsible manager, recovery contact, access roles, two-factor status and activation status. Check names inside the platform; a missing public search result does not prove availability. Keep credentials out of the project sheet and chat. Use platform roles where available.

Only mark an account complete after the profile exists, recovery is set up, management can access it and the exact profile link has been tested. Accounts and usernames remain subject to platform rules. Brian adds links only after Ayooba provides the confirmed URLs.

Professional media kit

Create a polished web page and a dated PDF download. Use the same portrait, type, colors, contact routing and niche names as the website.

Kit section	Required material
Introduction	Tony Slice: host, actor and creator. 50-word and 150-word approved bios; NY/PA base; management contact.
Audience	Platform-by-platform followers, reporting period, views, reach, engagement definition and audience geography. Use actual analytics exports and as-of dates; leave blanks until verified.
Content and fit	Comedy, restaurants, hotels/travel, events and selected lifestyle/business work. Use real examples; no invented endorsements.
Services	On-site content visits, social management, campaigns, hosting/emcee, appearances and hotel collaborations. Event planning scope must be confirmed separately.
Proof and assets	Three to five approved clips/projects, current headshots and downloadable press photos with usage guidance.
Working together	Inquiry process, deliverables, timing, content review, fees by quote, usage term, paid-ad usage, exclusivity and cancellation terms in the actual agreement.

Actor page

Include a current natural headshot, name, short bio, real reel and accurate experience. Add physical/casting details only when Tony approves them. Do not invent union membership, representation, credits, awards or celebrity status. Press-photo permission is not permission to impersonate Tony or create synthetic endorsements.

Brand rules Brian can apply now

• Use the bold Tony Slice wordmark and real photographs. New direction: deep navy #101D35, champagne gold #D4B477 and warm cream #F7F2E8. Add Christmas accents as a removable seasonal layer.

• Use at most two font families. Keep body copy comfortably readable and buttons explicit. Use a strong still image first; load social embeds after interaction where practical.

• The homepage voice is professional with personality. Comedy pages can be more candid. Avoid exaggerated fame, reach, guaranteed virality or guaranteed event attendance.

• Standard public contact: 570-494-7523. Secondary 814-933-7166 only where needed. Verify the management inbox before publishing it.

Proof status

User-provided: business portfolio, desired public brands, management role and service geography. Observed: homepage wording and links. Unverified: legal ownership, DBA registration, rights assignments, account control, handle availability, audience figures, event-planning capacity and media-kit performance claims.

Seasonal content and lead routing

Keep one permanent site structure. Change the holiday theme and featured content without changing the domain, core page URLs or business identity.

Christmas through January 15, 2027

Enable the holiday version when Brian publishes the approved design. Keep it active through January 15, 2027 at 11:59 PM America/New_York. Return to the evergreen version January 16 at 12:00 AM. This is a website configuration requirement; no scheduled task or live theme change was created in this session.

Editable field	Example / behavior
Season label	Holiday edition; reusable for winter, spring and other campaigns.
Hero headline	Your business. Your event. In the spotlight.
Hero support	Hire Tony Slice to create content, bring personality and host your next event.
Public description	On-site content, ongoing social media, event hosting and brand collaborations across New York and Pennsylvania.
Primary / secondary action	Hire Tony for Social Media / View My Work.
Season window	Start at approved publication; end January 15, 2027, inclusive, New York time.
After expiration	Remove Christmas accents and holiday-only copy; keep general event, travel and business content.
Preview and override	Brian can preview both versions and temporarily override the date if Tony requests it.

Short initial inquiry form

Name; email or phone; inquiry type; date or Flexible; city/state; brief message. Make budget optional. For events reveal guest count, venue and host vs. planning needs; for travel reveal property, proposed stay dates and collaboration goals; for brands reveal deliverables and usage needs.

Inquiry choices: Social content visit; Monthly social management; Launch coverage; Event host/emcee; Party coordination; Corporate event/catering quote; Hotel collaboration; Acting; Business-service referral.

Confirmation copy: Thanks - your request has been received. Our team will review the details and contact you. Your date is confirmed only after written agreement.

Theresa’s lead desk

Route inquiries to an approved management destination and record service, source page, date, location, next action and status. Send only information needed by the relevant operating business. Keep marketing opt-in separate from an inquiry. Measure submitted leads, qualified leads, business-link clicks and confirmed bookings; do not treat button clicks as bookings.

Rights and customer clarity

This is a launch checklist, not a determination of ownership or a substitute for reviewing the actual company and contractor documents. Regulatory scope here is US-facing content, bookings and promotion; state-specific business and privacy duties remain to be checked against actual operations.

User-specified ownership wording

Requested public copy: Tony Slice is owned and operated by All Media Solutions.
© 2026 All Media Solutions. All rights reserved.
Third-party trademarks and licensed materials remain their owners' property.

Carry forward the user-specified All Media Solutions name; keep the private Wyoming parent out of promotional branding. Confirm the legal/DBA relationship and rights chain for final policies and contracts. A footer does not create or transfer ownership. Do not add an unverified LLC suffix or registered-trademark symbol. [1]

Private rights file

Confirm the actual contracting entity and DBA relationship; domain/account administration; each contributor’s existing material; signed assignments or licenses for Brian and Ayooba’s deliverables; photographer/video/music licenses; Tony’s name/likeness authorization; and permitted usage for collaborators. Paying a contractor alone does not establish ownership of all their work. A website-wide rights claim cannot claim third-party material. [2]

Consumer and regulatory launch rules

• Separate host/emcee work from full event planning. Quote coordination only after confirming who performs it, what is included, availability and the actual price.

• Disclose sponsored stays, discounts, commissions and connected-business promotions with the relevant recommendation. A general footer or disclosure page is not enough. Example: This stay was provided by the hotel. Example: We may earn a commission if you book through this link. Use only when true. [3]

• Use genuine testimonials and actual statistics. Show visit dates, tested amenities and any limits; do not imply independent hotel reviews when the stay is sponsored.

• Before taking payment, show the actual service provider, total price/fees, scope and cancellation/refund terms. Privacy and legal notices must match real data collection and operators; the parent’s promotional privacy does not justify a false legal identity.

Brian and Ayooba: delivery order

Brian: correct brand hierarchy and destinations; build selected visual direction; create reusable drafts; add media-kit/actor pages; configure season rules; fix sharing/canonical setup; check mobile, keyboard and form handling.
Ayooba: confirm assets and business URLs; verify or reserve handles through authorized platform setup; organize clips by niche; collect analytics evidence and permissions; populate drafts.
Together: use one task board with owner, page, status, proof link and next action. Theresa confirms public management and ownership wording.

Hire Tony for social media

Lead offer for restaurants, retailers, hotels, venues, service businesses and corporate marketing teams. All packages below are proposed structures; rates, quantities and availability are finalized by written quote.

Copy-ready homepage introduction

TONY SLICE
Your business. Your event. In the spotlight.
Hire Tony Slice to visit your business, create social content, bring personality to your campaign or host your next event. Explore one-time content visits, ongoing social media support and brand collaborations across New York and Pennsylvania.
[Hire Tony for Social Media] [View My Work]

Three clear ways to hire Tony

Offer	Proposed scope	Button
Content Visit	A planned on-site session: product/service footage, on-camera segments or interviews, and edited short-form content. Quote the session length, edited-video count, travel and revisions.	Book a Content Visit
Ongoing Social Media	A monthly content plan, agreed editing/captions/scheduling and reporting for named platforms. Specify visits, deliverable counts, approval timing and account access.	Request a Monthly Plan
Launch / Campaign Coverage	Content for openings, product launches, corporate events or seasonal campaigns. Quote event attendance and hosting separately when requested.	Plan My Campaign

Keep distribution and production distinct

Content made for a client’s own accounts is different from a sponsored feature on Tony’s channels. State which is included, where it appears and for how long. Paid advertising, paid-ad usage rights, raw files, extensive revisions, inbox management and extra travel are separate scope items unless specifically included. Do not imply that every content package includes an influencer endorsement.

Proof before promises

Show three relevant real projects with the client’s permission, deliverables and dated results. Never promise a view count, sales lift or follower growth. Keep views, unique reach and inquiries separate; choose useful commercial examples alongside the biggest entertainment clips.

Lead form and quote fields

Start with name, business, contact, service, city and goal. Reveal existing social links, preferred platforms, visit date, monthly vs. one-time needs, content volume and optional budget. Route to Theresa’s approved contact destination. Every quote records deliverables, turnaround, revisions, travel, usage, fees and cancellation terms.

Internal costing rule

Price against on-site time + travel + editing + admin + direct costs + intended profit. Obtain restaurant costs before quoting catering bundles. Track qualified inquiries and paid bookings by service; compare results only over a stated period and avoid changing prices based on clicks alone.

One landing page. Ten paths.

Use one master service directory, with editable pages for real offers. This is the updated commercial structure; topic pages for videos, pets, acting and articles remain available within it.

Category	Destination / action
1. Social media services	/social-media/ - content visits, ongoing management and campaign coverage.
2. Parties and event hosting	/events/ - Book Tony; distinguish hosting from quoted setup/coordination.
3. Corporate events	/corporate-events/ - Request a Business Quote; capture event size and location.
4. New York catering	/new-york-catering/ - Request Catering Pricing; show provider, menu, minimums and delivery area when confirmed.
5. Restaurant / brand promotion	/collaborate/ - Promote My Business; clearly state production and distribution.
6. Hotels and travel	/travel/ - property features, real visits and collaboration inquiries.
7. Shopping	/shop/ - separate links to Noble Goods and CacaceNYC; use the real stores.
8. Local services	/businesses/ - Fresh Fold pickup booking, furnished stays, pet care and approved services.
9. Media and acting	/media-kit/ and /actor/ - showreel, headshots, dated media proof and casting inquiry.
10. Business partnerships	/partnerships/ - partnership/licensing inquiry; do not sell an undefined license.

Three supporting offers

Events: Your party. Tony Slice’s personality. Request hosting, an appearance or a quoted setup-and-hosting package.
Corporate/catering: Ask about corporate and volume pricing for your New York event. Final quote depends on menu, provider, location and availability.
Fresh Fold: Laundry pickup, wash/dry/fold and delivery in the confirmed service area. Delivered by Orbit. Button: Book Laundry Pickup.

Media and profile evidence

User-supplied profiles: instagram.com/tonyslice and tiktok.com/@tonyslice1. A matching public LinkedIn profile was found at linkedin.com/in/cacaceny. The live homepage displays Q104.3 and The Ryan Show; confirm dates/appearance details before adding a stronger credit. The 92.3 program and the film Avenue title/role need supporting links. Top-video ranking is pending verified counts; connected analytics had no social accounts attached at the check.

Brian and Ayooba: next delivery

Brian: revise the cinematic visual target, build the social-media page and reusable directory, connect working inquiry destinations, resolve existing spam content and test on mobile.
Ayooba: supply real content examples, dated video statistics, exact business URLs, catering details and media links.
Theresa: manage quotes, confirm deliverables/availability and review contracts/ownership records. No live deployment or account creation is represented by this document.

Google Search Central, Spam Policies (official): https://developers.google.com/search/docs/essentials/spam-policies. Expand with useful distinct pages; avoid duplicated city/service doorway pages. Platform and site observations checked October 22, 2026.
